

CRANE ANALYSIS TIMELINE 2020

The graphic below outlines the timeline that CRANE will work to in 2020. Key data submission deadlines are also flagged.

Patients recorded in CRANE up until the 31 December 2019 will be included in the 2020 Audit Day Reports and Annual Report.

Once the data has been analysed, the report can be written. The final draft then should be agreed by key stakeholders, including the CDG, before publication in December 2020.

Acronyms

ADRs: Audit Day Reports

AR: Annual Report

CDG: Cleft Development Group

CEN: Clinical Excellence Network

CRANE: Cleft Registry and Audit Network

QA: Quality Assurance
