Updates to DDE data capture and resources

In April, we made a number of updates to data capture in relation to developmental defects of enamel (DDE). Please see the updated [Dental Health Outcomes Data Entry Guide](#) for more information.

The [CRANE Data Dictionary](#) and [Data Collection Form 2 \(Outcomes\)](#) have also been updated – please ensure you are using the correct versions. If you have any questions, email us at crane@rcseng.ac.uk

Registering children who Have been adopted

In response to a number of queries about how to manage the registration of newly adopted children within the CRANE Database, we have added a new FAQ to our [FAQs for professionals](#) webpage. The FAQs also contain further information on which children should be included/excluded from the CRANE database.

Consent for CRANE data collection

Check that you are using the most [up-to-date version](#) to remain compliant with Information Governance standards.

Have you read the latest papers?

We are excited to have added two more papers to our publications:

[Number and timing of primary cleft lip and palate repair surgeries in England](#)

[Longitudinal educational attainment among children with isolated oral cleft](#)

Key dates in 2023

Dashboard data submissions

1 September: for Q1 2023/24

8 December: for Q2 2023/24

[See all indicators submitted by CRANE.](#)

13 November CDG meeting: CRANE annual report presented for review

On behalf of the CRANE Team
